UNITED STATES GOVERNMENT

## memorandum

DATE: 27 Jun 90

REPLY TO  
ATTN OF: DT-S

SUBJECT: SUN STREAK Report - 9038

TO: ODCSINT, DAMI-PO

1. (S/STD/NF) On 27 June 1990, three sessions were conducted to determine the current location of a target vessel identified as the [REDACTED]. Determine if the vessel is carrying drugs; if so, where and how are the drugs stored. Determine the destination and final disposition of the drugs.

2. (S/STD/NF) Viewer reported that there was presently no contraband aboard the vessel.

3. (S/STD/NF) Viewer 052 reported contraband which will be off-loaded/transferred in kingston, Jamaica on 28 June 1990, at approximately 1200 hours. The drugs are located in the middle of the ship vertically, near the rear and on the right side of the ship. The drugs are in the vicinity of something with a sweet taste, like, for example, orange juice. 052 also perceived that there is something important about a lifeboat, or something round which has a tarp pulled over it.

4. (S/STD/NF) 052 and 018 have very close correlation in replies to queries. 025's results of no drugs presently on board is not necessarily in contradiction with 018's findings of drugs already having been off-loaded.
